

RoHS III and WEEE Compliance

ROHS III

RoHS III compliant means the absence of hazardous substances in a concentration higher than the tolerated concentrations defined by the EU directives (2011/65/EU and (EU) 2015/863) (0,1% for Hg, Pb, PBB, PBDE, Cr-VI, BBP, DBP, DEHP und DIBP and 0,01% for Cd).

There are a few exemptions from the substance concentration limits for special purposes. E.g. some Janz Tec products make use of components which fall under the following exemptions 6(a), 6(b), 6(c), 7(a), 7(c)-I, 7(c)-II, 8(b)-I 15. Products which rely on such exemptions are not explicitly marked as such.

Janz Tec products are compliant with RoHS III and are marked as „RoHS compliant“ on their product identification label.

WEEE

Janz Tec products are manufactured to satisfy environmental protection requirements where possible. Some of the components used are capable of being recycled. Final disposal of this product after its service life must be accomplished in accordance with applicable country-, state-, or local-laws or -regulations.

For Germany

All Janz Tec products are registered as B2B custom at the german EAR, unless it is specified otherwise in contracts with customers.

Hence Janz Tec products **must not be** disposed to public collection points for used electronic equipment. Refer to §14 of General Terms & Conditions of Janz Tec AG for the details regarding the mutual obligations as to the disposal of Janz Tec products

For products that are imported into the EU market (except Germany) please contact our corresponding sales representative for more information.
